20 JUL 1965

MEMORANDUM FOR: DAD/RD

SUBJECT:

Consultants:

25X1

1. We have examined the Current Employment and Financial Statements of the above individuals and believe their employment as Agency consultants would be proper within the meaning of the Presidential Order of Federal Ethics, E. O. 11222 of May 8, 1965, and existing statutory authority on the subject of conflict of interest.

2. The Statements should also be reviewed by you and any other individual responsible for their use so that they will not be used in such a manner or in such areas as will give rise to a conflict-of-interest situation. Upon completion of your review, the Statements should be forwarded to C/CPD/OP (Room 5E69) for retention.

3. It should be noted that the approval of the above individuals is based on their proposed use as stated in their justifications. If this use changes substantially or if these individuals are later used in connection with a different matter, then it will be necessary to reexamine their employment. Furthermore, we should be advised of any instance where a consultant will be working on any matter in which any of the companies or institutions listed on his Financial Statement is involved.

4. Should any further questions concerning the existence of a present or potential conflict of interest arise in connection with the use of these individuals, please consult this Office.
